

MAZOR

Ointment for Moist Skin Areas*

MAZOR is a mixture of essential oils that neutralize fungi that develops in humid zones (between the toes, around joints, the vagina, the nipples of breast-feeding women, & babies' buttocks). **MAZOR** soothes itching & irritation, proving therefore very helpful in cases of eczema (especially those situated in humid zones). It stimulates skin regeneration.

Properties of the plants used:

- ☼ *Lavender* stimulates epidermis regeneration, calms & soothes, kills bacteria & fungi, and is also treats burns & acne.
- ☼ *Camphor* kills bacteria, combats inflammation & improves circulation.
- ☼ *Eucalyptus* is antibacterial, anti-inflammatory, healing and boosts the immune system.
- ☼ *Myrtle* has anti-inflammatory properties, fights infection, kills bacteria & fungi, and heals skin.
- ☼ *Thyme* is an antiseptic, it cleanses & soothes, anti-fungal and stimulates the skin.
- ☼ *Ylang ylang* has a calming effect on the mind & body and has a balancing & stimulating effect on the skin. It also stimulates circulation & relieves skin irritation.
- ☼ *Oregano* stimulates the immune system, it is antifungal, antibacterial & antiparasitic, and a strong analgesic.
- ☼ *Basil* treats acne, skin irritations, & congested skin. It also kills bacteria & fungi as well as toning the skin.
- ☼ *Wintergreen* is an effective pain reliever, helps heal skin, and is an antiseptic.

Usage suggestions: *Skin Fungi:* Spread the ointment on the affected zone 2 times a day for a week. Then reduce the applications to 1 time a day for 2 more weeks. Then interrupt the treatment for 2 weeks. Renew the cycle of treatment as necessary. In case of fungi between the toes, it is recommended to also treat the neighboring toes.

Humid Eczema: Apply 3 times a day.

Psoriasis: Add **MEDBAR** to the treatment in cases of excessive itching, infection, or wounds situated in humid zones.

* Dermatologically tested, not tested on animals, ONLY FOR EXTERNAL USE. Purely herbal ingredients.

Usage precautions: As for any product containing essential oils:
- In case of contact with eyes, rinse thoroughly with water.
- To test for sensitivity, start by applying a small quantity of the product. In case of abnormal reaction (headaches, persistent redness of the skin, nausea, dizziness) discontinue usage of the product.

<< *The efficacy of Herbs of Kedem products is optimized by the dosage and the synergy of the plants being used* >>
