

SEPHORRIS

Varnish for Opaque & Thickened Nails*

Nail varnish with a base of essential oils that blocks the proliferation of micro-organisms that cause thick & yellow nails

INGREDIENTS: red thyme, oregano, cinnamon, savoury, clove, paperback tree, ylang ylang, rosemary, cinnamal*, eugenol*, linalool*, alcool cinamyl*, benzyl benzoate*, coumarine*, limonene*, & geraniol*.

** these ingredients are present in the essential oils, they are not added to the preparation.*

PLANT PROPERTIES:

- Thyme* : antiseptic, antibacterial.
- Oregano* : powerful antiseptic, toning and stimulating.
- Cinnamon* : antifungal, antiseptic, powerful anti-bacterial for a large spectrum of bacteria.
- Savoury* : powerfully anti-infectious, stimulates the skin, toning.
- Clove* : antiseptic, powerful bactericide, anti-infectious, healing.

DIRECTIONS: In case of skin sensitivity, apply a greasy substance (like Vaseline or the balm **MAZOR**) on the skin around the nail so as to avoid contact of **SEPHORRIS** with the skin.

Apply the product carefully over the entire nail surface with the aid of a brush, following these indications for 20 days:

- 2 times a day for the first 10 days
- 1 time a day for the following 10 days

Then interrupt the treatment for 2 weeks. Renew treatment afterwards if necessary.

The nail is inert & **SEPHORRIS** helps stop alteration to the nail, even in chronic cases. Many cycles may be necessary. A change in nail colour (becoming grey or brown) may appear during treatment.

* Dermatologically tested, not tested on animals, ONLY FOR EXTERNAL USE. Purely herbal ingredients.

RECOMMENDATIONS/CONTRE-INDICATIONS: It is possible in severe and ongoing cases that several treatments may be necessary (10 treatments for a completely affected nail). Above all, don't become discouraged and continue the treatment until the condition ceases.

- It is recommended to avoid all contact with the skin & eyes due to the strong concentration of this product. In case of contact with the eyes, please rinse thoroughly with clear water.
- It is recommended to begin a treatment with the balm **MAZOR** in case of skin fungi between the toes.
- When treating the toes, It is also recommended to spray your shoes with **TAHAR**.
- It is advisable to also treat the healthy nails neighbouring the affected nail(s) daily.
- It is also advisable to also drink the detox tea **NIKUR** during & after the treatment.
- Do not use on children under 10 years of age or adults over 70 years of age.

COMMENTS:

- It is important to know that a completely affected nail grows very slowly.
- It is only after an average of 3 months that results will start to become visible; this marks the beginning of the healing process.
